Artist's Impression

The nicest thing about going out is just coming home.

The glass fins that define the built form symbolises two outstanding works of art that have been refined to crystalline perfection and now highlighted on a lavish display. Geometric expressions of glass and steel complement expanses of greenery, creating the elegant picture of a refined urban retreat. It is a sight that not only declares your arrival in every sense, but also beckons you home, every single day.

Artist's Impression

You might be tempted to call this cloud nine.

Welcoming cascades of water and fascinating fountains are just some of the carefully considered elements that will always lull you into a receptive mood. The water feature par excellence has to be the mesmerising pool and its captivating pavilion, together with the adjacent jacuzzi cum massage pool and children's fun pool. Think of it as the perfect respite for tired bodies after a hectic day.

Transport yourself to somewhere idyllic.

Lush landscaping, charming gardens, soft green walls and velvety terraces ensure that home is a green enclave seemingly removed from the rush of the city. In addition, a flexibly-designed function room complete with designer fittings, a reading room and a steam room are just some of the many unique lifestyle-extending features that you'll relish using.

Soak up the luxury of space.

If you've ever wished for a canvas to express your personality, lifestyle and taste, you too will agree that One Balmoral is just perfect. Optimally laid-out along a North-South orientation for maximised views and a refreshingly breezy living environment, you'll appreciate this sleek, modern metropolitan interpretation of home. NOTES TO SPECIFICATIONS

A Marble/Granite

Marble/granite are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble/granite as well as non-uniformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite, being a much harder material than marble, cannot be re-polished after installation. Hence, some differences may be felt at the joints. Subject to clause 14.3, the tonality and pattern of the marble, limestone or granite selected and installed shall be subject to availability.

B Timber Strips

Timber strips are natural materials containing veins and tonal differences. Thus, it is not possible to achieve total consistency of colour and grain in their selection and installation. Timber strips are also subject to thermal expansion and contraction beyond the control of builder and Vendor. Natural timber that is used outdoors will become bleached due to sunlight and rain. Thus, the cycle of maintenance on staining will need to be increased as required. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.

C Air-Conditioning System

To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters, clearing of condensate pipes and charging of gas. The Purchaser is advised to engage his/her own contractor to service the air-conditioning system regularly.

D Television and/or Internet Access

The Purchaser is liable to pay annual fee, subscription fee and such other fees to the television and/or internet service providers or any other relevant party or any relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective channels and/or internet access.

E Materials, Fittings, Equipment, Finishes, Installations and Appliances

Subject to clause 14.3, the brand, colour and model as specified for all materials, fittings, equipment, finishes, installations and appliances to be supplied shall be provided subject to Architect's selection and market availability.

F Layout/Location of Wardrobes/Walk-in Wardrobes, Cabinets, Fan Coil Units, Electrical Points, Fittings and Electrical Appliances, Television Points, Telecommunication Points, Audio Intercom System, Door Swing Positions and Plaster Ceiling Boards

Layout/Location of wardrobes/walk-in wardrobes, kitchen cabinets, fan coil units, electrical points, fittings and electrical appliances, television points, telecommunication points, audio intercom system, door swing positions and plaster ceiling boards are subject to Architect's final decision and design.

G Warranties

Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and/ or appliances installed by the Vendor at the Unit, the Vendor will assign to the Purchaser such warranties at the time when vacant possession of the Unit is delivered to the Purchaser. Notwithstanding this assignment, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.

H False Ceiling

The false ceiling space provision allows for the optimal function and installation of M&E services. Access panels are allocated for ease of maintenance access to concealed M&E equipment for regular cleaning purposes. Where removal of equipment is needed, ceiling works will be required. Location of false ceiling is subject to the Architect's sole discretion and final design.

I Glass

Glass is manufactured material that is not 100% pure. Invisible nickel sulphide impurities may cause spontaneous glass breakage, which may occur in all glass by all manufacturers. The Purchaser is recommended to take up home insurance covering glass breakage to cover this possible event. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clause 9 and clause 17.

J Planters

Planters are designed to take the loading of potted plants only. No soil material or turf/plants will be provided in the planters.

K Wall

All wall finishes shall be terminated at false ceiling level. There will be no tiles/stone works behind kitchen cabinets/long bath/ vanity cabinet/mirror.

L Tiles

Selected tile sizes and tile surface flatness cannot be perfect, and subject to acceptable range described in Singapore Standards SS483:2000.
